***Allowable Subject Matter***

Claims 1-6 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: With respect to independent claims 1 and 3, the prior art of record does not teach nor disclose a process conditions change monitoring system of a scanning electron microscope equipped with a monitoring unit for monitoring changes in exposure conditions by use of electron beam images of a resist pattern, wherein the respective dimensional characteristic quantities of a first pattern portion and a second pattern portion are monitored relating to characteristic quantities showing edge widths of the same resist pattern, against changes in exposure conditions so as to calculate changes in the exposure conditions relating to the focus of the scanning electron microscope in combination with the rest of the claims. Since this aspect is not disclosed nor taught in the prior art of record, independent claims 1,3 and dependent claims 2,4-6, which also incorporate this aspect, are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
